

## MONEX BRAKE FLUID DOT 3

### DESCRIPTION

MONEX DOT 3 is a high-performance hydraulic brake fluid for use in automotive disc, drum and anti-skid brake systems and clutch systems.

### CARACTERISTICS

- Excellent corrosion protection.
- Reduces leakage and loss of fluid to a minimum.
- Improved life and reliability of brake system components.
- High water absorption properties.
- Stable viscosity for prolonged periods.

### APPLICATION

This product is designed for use in the hydraulic braking systems & clutches of engine.

### PERFORMANCE

ISO 4925, SAE J 1703

### TYPICAL PROPERTIES

TEST	METHOD	UNIT	TYPICAL VALUES
Density @ 15 °C	ASTM D 4052	g/ml	1.021
K. Viscosity @ 40 °C	ASTM D 445	cSt	6.01
K. Viscosity @ 100 °C	ASTM D 446	cSt	1.72
Flash Point	ASTM D 92	°C	111
PH	ASTM D 193	°C	9.8
